CSS Minsk Js

September 10, 2017

Minsk, Belarus

CSS-Minsk-JS is the first Belarusian conference for front-end developers and UI specialists with all talks in English.

2 tracks

CSS track (talks about CSS, SVG, a11y etc.)

JS track (performance, frameworks, devtools etc.).

400+ developers will gather together to learn about latest trends in CSS and JS world. Among the topics of the conference are:

Speakers from the USA, the UK, Austria, the Netherlands, Germany, Ireland, Poland, Russia and many more (among who are GDE experts) are coming to share their experience and knowledge and have great time with Belarusian communities.

- applications monitoring;
- performance optimization;
- isomorphic applications;
- developer tools;
- l10n standards;
- present and future of CSS (Houdini, Grids, Custom properties);
- usability and a11y;
- media in browser (audio, video, WebVR);
- graphic for web (SVG, animations);

Venue

Renaissance Hotel, Dzerzhinskogo 1E, Minsk

Our amazing partners help us keep tickets affordable, organize great workshops and welcome participants in their stands.

By supporting CSS-Minsk-JS you help developers to connect each other and a worldwide community for experience exchange and mutual investigations.

Partnership rules

Partnership packages are individual, and unused partnership opportunities do not affect the sum of contribution. Thus you are welcome to offer your ideas that can enrich the conference and may be added to your package for free!

If you have any special partnership idea you are welcome to contact CSS-Minsk-JS project manager for further discussion.

If you have already chosen the package that suits your business interests most you are welcome to contact us. Please do not ignore **Code of Conduct** to create a comfortable atmosphere for all participants.
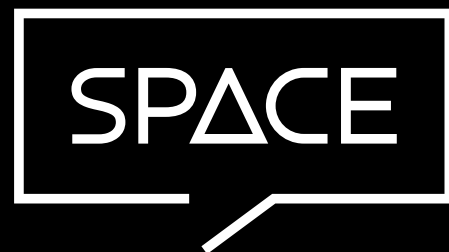

Org Team

The conference is organised by 2 tech communities: MinskJS and MinskCSS.

Our main goal is experience and knowledge sharing in international community. We support ideas of open web, opensource software and free access to knowledge.

In cooperation with SPACE and LOVATA
